The Season of 1947

Those who bought bulbs from our Advance List last year need little convincing as to the quality and genuineness of the bulbs we offer.

What should have been a normal production year in Holland has been jeopardized by the coldest winter that country has experienced in over 200 years. Our representatives have been instructed to reject any and all stock that has suffered cold damage, and our guarantee will still hold in the face of this unforeseen act of nature.

The prices listed here are a **guaranteed** saving of 15% or more from our Fall Catalog prices plus a 5% discount for orders placed **before June 15th**.

These prices effective until **June 15th with no exceptions**.

Prepaid transportation on all orders placed before July 15th.

We are able to do this only because it will be possible for your order to be **selected and packed in Holland** if placed before July 15th, representing a saving to us in counting and sorting labor in our own warehouse, and because pre-season orders will establish a determining factor on future business.

NOW IS THE TIME TO PLACE YOUR ORDER.
